About the beginning of the year 1903, Mr. J. L. Hunter, then twenty-five years old, began to work for Mr. Whiting P.Merry, whose farm lay in the northern edge of Hickory Township. On the south, the Shenango River separated the farm from Sharpsville; on the north, the property of W. D. Lee lay between it and the Sharpsville-Byerlys Corners road.

"Doctor" Lee carried on an extensive practice as a Medical Electrician. In addition to treating numerous patients at his home, he made calls on others, some of whom lived as far away as Oil City. Dr. Lee's oldest daughter, Jennie (Elizabeth Jane), helped him with this work in his office, at his home. The next two daughters, Eliza and Florence, had married, a few years previous, against their father's wishes. Their husbands were Wayne and Earl Parker, nephews of Mr. Lee's third wife, Mariah Richard Lee. Both men were employees of the Erie Railroad; Earl, the elder brother, owned the Richard farm on the Sharpsville-Orangeville road. Beside Jennie, Mr. Lee had four younger children living at home: Will, Clara, Savilla, and Annie.

In March 1905, J. L. Hunter entered into partnership with Earl Parker, who was not working for the railroad at the time. Later, when Mr. Parker returned to railroading and was unable to give much time to the farm, the partnership became a less satisfactory arrangement, although additional help was hired. Roy Wallace, of Sharpsville, worked on the farm for a

while; and Max (Albert McMinn) Hunter, J. L. Hunter's younger brother, was there for the summer of 1907.

Meanwhile, on April 24, 1907, J. L. Hunter had been married to Jennie Lee. This marriage had Mr. Lee's consent and took place at his home. The Rev. John A. Lavely of the Sharpsville Methodist Episcopal Church performed the ceremony. Following their marriage, Mr. and Mrs. Hunter went to housekeeping in the old house on the Richard farm.

The partnership came to an end in the fall of 1907. Livestock and equipment were disposed of at sale on November 8; and Mr. and Mrs. Hunter moved to the farm of Lauren D. Christy, a cousin of Mr. Hunter's mother, east of Kinsman, Ohio. Here Mr. Hunter received thirty dollars a month in money; and they shared a house with Lauren Christy's father and mother, William R. and "Aunt Lottie," of whom the former died little more than a month later, on December 16, 1907.

The first volume of the diary begins with January 1, 1908; and the first two volumes are continuous to April 20, 1909. Volumes 3 and 4 are beginnings of later diaries which were given up after short periods. All four volumes are written in pencil, in account books of various sizes and styles:

Volume 1: 8 1/2 by 4 inches. Labeled "Form 1164 (Long Tally)." White board covers; bound on the long edge.

Volume 2: 8 1/4 by 4 3/8 inches. Not labeled. Brown board covers marbled with blue, white, and red; bound on the short edge. The letters added to this volume are among a number left by Mrs. J. L. Hunter.

Volume 3: 6 5/8 by 4 inches. Labeled "Form 1165. (Short Tally)." Green board covers mottled with white; bound on the long edge. For use as a diary, this book was turned upside down and reversed back to front. After October 1910, it is a record of financial matters rather than a diary. The bulk of the book, written from front to back, is a record of sales of milk, butter, and eggs, July 1916 to January 1917.

Volume 4: 9 by 3 5/8 inches. Not labeled. Brown board covers marbled with green; bound on the long edge. Only the first few pages are used as a diary; the remainder of this book contains the record of milk and eggs from March 1913 to May 1915.

Forward To The On-Line Version

I have hand-typed William A. Hunter's 1943 transcription into my word processor. The original in hand is a bound set of hand-typed 8 1/2 by 11 inch pages. The pages are typed only on one side of each page. The entire volume is hard-bound, in a dark blue cover with gold letters titled "THE DIARY OF MRS. J. L. HUNTER."

I have made every attempt to be faithful to the typed manuscript, keeping punctuation, capitalization, and spelling errors intact. I have not preserved line wraps, as this is cumbersome in the word processor, and is also not likely representative of the original diary.

I have added a descendents chart for Mr. and Mrs. J. L. Hunter showing descendents through 1996. I have re-ordered the photographs, as the 1943 edition was limited to having photographs at the boundaries of the sewn signatures.

I would like to have the opportunity in the future of transcribing directly from the original to the computer, including some scanned pages, but I do not have access to the original material at present.

ADDITION TO VOLUME 2

Mr. and Mrs. J. L. Hunter continued to live at Lauren Christy's until October, 1909, when they moved to Whiting P.Merry's, between W. D. Lee's farm and the Shenango River, opposite Sharpsville. Less than a year later, in August, 1910, they bought a 24-acre farm just southeast of Clarksville. The following group of letters, which help to fill in the gap in the diary, were written to E. C. Hunter, who worked for W. P.Merry in the summer of 1909.

1. This letter is undated, but the diary shows it to have been written March 17-18, 1909. Paragraphs in italics were written by J. L. Hunter.

Wednesday Evening

Dear Brother.
Helen was telling me this evening that you was wanting us to write you a letter.

I have just got William ready for bed & he is entertaining himself playing with his shadow on the wall, so while he is good I will start a letter but hard to tell when I will get it finished

Thursday Morning.

Well Ed. I guess William thought I had written enough last night & I have not much time to write this morning as I want to go across the road & see the young son that Rolland says, "his mama found this morning."

how are you getting along any way? just think I have not seen you since Christmas, aren't you ashamed of yourself?

if it is nice Sunday we expect to take William to church,

We were in Sharon last Saturday afternoon & saw Ralph & Anna. they were getting Ralph a new suit. & they said Max went from here home Friday & then went to Niles Saturday morning.

have you heard from him since, we are anxious to know what he has done. Roy did not want him to take the job over there, as he was afraid it would be Sunday work.

Ralph told me that Max was looking around for a horse and buggy before he came back up here I do not know what he ment he should have found out what he was going to do Fred told Lauren that the men at Niles wanted both of you boys.

I told Max the objection I had to it was the Sunday work if he ran a wagon. and I do not think Max would like it as he would be tyed down to chore.

Helen is going so much close. lots of love from

Jennie

Kinsman Apr 7 -07 (should be 09)
Dear Brother I hardly know what to say. You know how it is about here L. D. has his inshuearance premium to pay this munnth and I think one next & I have mine in June. I was rather surprised about getting a horse. If Pa is willing for you boys to have a horse and is for his good why could he not go security on the note you boys would give. and if he did not want to do that let him get it himself. The way it is with us we haven't got it and if I came on Lauren he would have to borrow it. It may be I could borrow it if Lauren would go my security Now if you boys and Pa can make a satisfactory deal and give a note I think we could help you if you need it when the node came due. Now I do not want to discurrage you but you know it was not been very pleasant when any of the boys had any thing or wanted to get something. Now I do not know what you have in view at home as I thought Curtice wasant going to be at home. If you boys and Pa get along alright you could get the horse and pay for it but there the rub From Roy

Kinsman O. April. 8.

Dear Brother.

Roy said for me to write a little as he had not written anything but business.

We were glad to hear from you & think the card you sent very pretty.

We hope you have got work by this time, be sure & let us know.

I guess everything up this way is about as usual we expect Aunt Lottie home tomorrow night, tell Mother the reason we wrote about her coming next week like we did, we thought she might come this week, but she will know when she can get away best.

Nellie Scott asked about you last Sunday. they were all out, including the Stevenson boy.

Now if you can come up for Commencement, be sure & do so. we will be glad to see you. expect to get Williams pictures to night & then will send you one. I was looking for my folks to day but they have not come yet & it is nearly 12 o'clock.

I was smarter this morning than when you were here, for I had my washing on the line & pie baked before breakfast.

Elinor sent William such a pretty pair of white shoes Tuesday evening.

Everett was in for quite awhile last evening

"his girl" has been teaching at the "Special" this week. he is building up great on you & Max being here for Commencement. I want to write to Max, we have never heard from him, Lauren saw him plowing the day he went to Warren.

Roy has been plowing all week.

I wish we could see our way out to help Curtis now, but you know just about it is here, we do not see much money at a time have not seen or heard of any since you were here.

I must close now & set the table for dinner.

William is about as when you was here is standing on the floor by me while I am writing. I suppose you have the card Helen sent you.

Good bye write soon, to

Your sister

Jennie

did you hear from New Castle I have not. Roy says to tell Kittie that we do not know of any one that has syrup to sell at that price. they are paying 55 ¢ in bulk at the store. Lauren has had $1 a gallon for all he has sold.

Kinsman O. May 10.

Dear Brother.

I have thought of you often & did not know but maybe you would write.

Roy said he did not get any chance to talk to you the Sunday he was down, & he wanted to.

Of course you know that Field Day was postponed until next Saturday May 15. & I wondered if you boys would be up, we would like to have you come if you can & stay over Sunday, but if you do come please let us know & I wrote to Kittie, Saturday to see if she would come up & make me a waist & sew some for Jessie so if you come this way, you might send her word, & she might come with you.

Roy & I went to Grandma's last Thursday & to Aunt Rillas Friday we had a nice visit & they were glad to see us. made an awful fuss over William. Aunt Rilla said he was prettier than either of his parents. (isent that awful) & I forgot to tell you that my sister Annie thinks he looks just like you in his picture, now isent that a comp.?

We were at church yesterday, guess everybody is alright Everett told me he was out past where Edd's girl lived on Friday.

I must close now & get some dinner for my "little half"

Oh yes they are going to have a baby show at the G. A. R. Hall the 18th & want me to take William but I say no indeed.

must close this crazy thing. write when you can & come up. lots of love from us all

Jennie

we had a letter from Della, Sat.

4. Envelope addressed to Mr. E. C. Hunter, Sharpsville, Pa., c/o W. P.Merry; postmarked Kinsman, June 22, 630 P M, 1909.

Kinsman O. June 22 -

Dear Brother.
How did you get over the Reunion? Hope you are well,
We are about as usual. Roy's cough is better.
I have an idea in my mind & will tell you what it is before I write anything else, for fear I will not have the time.
Everett told me the other night that he was thinking of going down to visit Max & you, and stay over night.
Roy & I are going down to my folks for the 4th on the Monday & you know that is the day of the big celebration in Sharon, so I thought that would make it an easier time for you boys to entertain Everett. if it is so you can go to Sharon & he could go down with us that morning & we will stay until Tuesday morning & he can come back with us I know he would enjoy it & I thought if it would suit you, why you write & ask him, either through us or direct to him. we thought his father might object to him going, so I asked him this morning & he was very much pleased I told him we would not say anything to Everett until we heard from you, instead of Max for he might never answer, ha, ha. so now you be real good & answer soon.
I spoke to Aunt Lottie about it, & she was afraid you might be going to Stanhopes but I told her if you was, you could say so or maybe Max would be suited,

Now Edd the reason I mention this is, I tho't it might be easier for you to entertain him now than some time again, for he intends going down to visit you. you can make your own arrangements, but I thot he could stop at Max's & then you could arrange to meet. if you come up this way maybe it will be Sunday, will it?

Now please take this alright the way I mean it & do not think I am bothering in you affairs.

We had a card from Sam last week. not much on it.

We had William baptized Sunday & he was so cute. Papa & Mama were up to Kinsman to church & Papa preached.

I guess things are about the same around here. do you know Edd Rose, well he is working for Mr Waid now.

Mama thinks William is getting better looking & looks like Edd Hunter. I must quit this silly thing & get some dinner for my better half.

how is everything down you way.

Now I shall expect to hear from you soon.

Roy wishes to be remembered to you & of course William sends you a smacking big kiss.

lots of love for yourself & Max. from

Roy, Jennie & William

5. Envelop addressed to Mr. El C. Hunter, Sharpsville, Pa., c/o W. P.Merry; postmarked Kinsman, Jul 22, 630 P M, 1909.

Kinsman O. July 22 -

Dear Brother
We received your very kind letter after Roy had seen you. so I thought I need not write right away when you had seen Roy.

he was so pleased with your letter, & I thank you for writing it, it was very kind of both Max & you to think of coming up to see Roy & we both appreciate it.

I was so disappointed to think I did not get to see either of you, but hope it will not be long before we do see you, we would be glad to have you come up any time at all.

We are expecting to go to Conneaut Lake next Thursday, (July 29) on Methodist Day. are you boys going.?

Are you coming up to the Reunion?

We will drive to Jimtown & take the train there for Conneaut, wish you could go.

I was at Mr Housers for dinner yesterday & she said Roy Stevenson had helped them 2 or 3 days last week with their haying, and he said if he had known you & Max were going to be in Kinsman on the 4th he would have been there if he had had to walk every step of the way he wanted to see you so bad

Oh I think you have quite a few friends here.

Roy seems to be better does not cough much now, but he is so sober & serious most of the time. I cannot help but feel uneasy about him at times but he dont like it if I worry about him,

But "Oh Edd" if anything should happen to Roy I don't know what I would do. but I must not think about that. he told me one day that he did not want to go down sick & he did not think he was going to. he works right along now.

Please do not tell any one what I write as he felt badly about me writing the cards home I did, & worrying the folks

wish I could talk to you,

How are things moving down you way & how are you getting along?

We had such a nice letter from Kittie last Saturday,

Yes we got our pictures & I think they are quite good only yours, mama was dreadfully disappointed in yours, could hardly believe it was you,

Oh My but ain't I <u>immense</u> in that one. Roy says I take up 1/6 of the picture,

Roy prizes them highly.

I must close as it is dinner time.

write soon & say if you are going to Conneaut.

You can let Max read this if you want to.

Good bye love to both of you.

William is in bed sleeping. has been there since about half past 7. & it is 11 now,

Jennie

Notes:

A. GENEALOGICAL TABLES. These deal with the three families most frequently mentioned in the diary. In other cases, relationships are mentioned in the index. The tables are incomplete: they include only the names of persons mentioned in the diary and of others necessary to show the relationships.

B. WILLIAM DANIEL LEE. This chronology covers the part of his life preceding the author's marriage. It is included in place of a sketch of her earlier life and because, like the genealogical tables, it may help to supply a background for the diary.
